1951 AGREEMENT FOR THE MARKETING OF SUGAR BEETS FOR PROCESSING

MEMORANDUM OF AGREEMENT made by the Negotiating Committee for sugar beets produced in Ontario in 1951, appointed under the provisions of "The Ontario Sugar Beet Growers' Marketing-for-Processing Scheme".

We, the undersigned members of the Negotiating Committee, agree and recommend to the Farm Products Marketing Board that the following agreement be approved:

1. (*a*) THE MINIMUM PRICES for sugar beets produced in Ontario during the year 1951 and purchased for processing in Ontario and delivered by wagon or truck to a plant opened by the processor shall be according to the scale below set out:—

FOR WAGON OR TRUCK DELIVERY AT FACTORY

AVERAGE NET RETURN OBTAINED FOR SUGAR

	$ 8.00	$ 9.00	$10.00
Sugar in Beet	Scale of Prices per Ton of Beets		
13%	$ 9.80	$10.75	$11.70
14%	10.60	11.65	12.70
15%	11.40	12.55	13.70
16%	12.20	13.45	14.70
17%	13.00	14.35	15.70
18%	13.80	15.25	16.70
19%	14.60	16.15	17.70
20%	15.40	17.05	18.70

For weigh station delivery the price shall be 75c per ton less than the price set forth above.

Prices of beets for any conbinations and fractional parts not shown in the schedule will be increased or decreased in proportion (provided, however, that if the average sugar content of the grower's beets falls below 13% such average shall be considered as 13%).

The above scale of prices is based upon an extraction of sugar expected by the Company, in the following amounts per ton, for sugar in the beet of: 13 per cent—190 pounds; 14 per cent—210 pounds; 15 per cent—230 pounds; 16 per cent—250 pounds; 17 per cent—270 pounds; 18 per cent—290 pounds; 19 per cent—310 pounds; 20 per cent—330 pounds. To the extent that the actual average extraction is more or less than the expected extraction above referred to, then the above scale of prices shall be increased or decreased in order that the grower and the Company shall share equally in the results of such difference between the actual average extraction and expected extraction.

(*b*) The above scale of prices includes the grower's half of a total return of $2.777 per net ton of beets paid for, obtained by the Company from the sale of dried beet pulp and molasses. Should the net returns to the Company for dried beet pulp and molasses from the 1951 crop vary from the amount of $2.777 per net ton of beets paid for, each variation of one cent (1c) up or down shall result in additions to or deductions from the above scale of sugar beet prices of one-half cent (½c) per ton; fractions in proportion.

(*c*) On beets delivered by the grower to a weigh station, the Company will pay no charge other than the railway freight computed on the gross weight of beets received at the then prevailing rate per ton; provided, however, that if such rate exceeds $1.25 per ton the excess over $1.25 per ton shall be charged back to the grower.

(*d*) The said net returns of the Company's beet sugar, dried beet pulp and molasses, and also the final scale of prices per ton of beets, after being computed by the Company from their books, shall be checked and confirmed or corrected by a reliable firm of Chartered Accountants. The certificate of the said firm shall be binding upon both the grower and the Company.

(*e*) The minimum allowance to a grower for pitting sugar beets on the order of the processor shall be One Dollar ($1.00) per ton in addition to the above-mentioned minimum prices.

(*f*) Initial payments shall be made on the 15th of each month for all beets delivered hereunder up to the 20th of the preceding month and shall be at the highest rate per ton that the Company deems to be justifiable taking into consideration anticipated production of and returns from the sale of sugar, dried beet pulp and molasses. A further payment shall be made on or before February 28th, 1952, and shall be at the highest rate per ton that the Company deems to be justifiable. On or before May 31st, 1952, provided all the sugar, dried beet pulp and molasses from the 1951 crop are not yet sold, a payment to the growers shall be made by the Company on the following basis: computed according to the scale of prices on the full amount of the net returns from sugar, dried beet pulp and molasses actually sold and paid for and on 85% of the Company's estimated net returns from sugar, dried beet pulp and molasses unsold. Final settlement is to be made forthwith after final net returns are received and the audit thereof completed as aforesaid, provided, however, that the Company shall have the right to deduct from any payment due hereunder any indebtedness owing by the grower to the Company on any account.

Dated at Chatham, this 1st day of February, 1951.
